

### 2D Bluetooth Handheld Scanner

### Go -anywhere general purpose Bluetooth barcode scanner

The BCX-9300 is a high reliable image scanner for general purpose use, very reasonably priced to offer the latest technology. Stay connected, all the benefits of the BCX-9300 come with a plug and play USB connection, making 2D wireless scanning affordable.

### Automatic wireless scanning

High speed decoding with a good depth of field and a snappy response. With the USB cable plugged in the unit opens in wired mode, pull out the cable to automatically switch to Bluetooth wireless mode when needed.

### Dependable and durable

Can withstand free drops from 1.5M. Dust and water sealed to IP54 standards, allowing it to cope with everyday knocks and spills in most harsh workplaces.

### High performance scanning

As well as being tough, the built-in 2D scan engine provides flawless scanning of 1D and 2D codes. Whether reading from paper or mobile phone screens, the BCX-9300 handles the job with efficient an effortless ease.

### Applications

Ideal for Commercial, retail, warehouse, POS and Pharmacies

# BCX Range

BCX-9300

## Technical specification

Scan mode	Image scanning
Resolution ratio	640 x 80 (0. mega pixel)
Decoding speed	230 times per second $\pm 2\%$
Scanning precision	$\geq 5$ mil (minimum resolution)
Scannable code medium	1D and 2D printing, mobile phone screen and computer screen barcode (support mobile payment)
Identification tolerance	Emission difference with more the 35% minimum print contrast signal
Scan depth	30mm - 300mm
Reading angle	Horizontal: 60°, vertical: 65°, rotation: 360°
1D Codes	Full series 1D codes
2D Codes	Airline 2 of 5, Data Matrix, Grid Matrix Code, GS1 composite codes and Maxi Code
Interface	USB port
Cable length	1.8m
System compatibility	Windows (full series) Linux MacOS vista (plug and play)
Working Voltage	5VDC
Working Temperature	0-55°C
Electromagnetic Compatibility	CE FCC DOC COMPLIANCE
Drop Test	1.5m free drop
Waterproof and dust proof	Conform to IP54 standard
