## Product Overview:

The BCX-18 is designed to perform to an extremely high standard and stay connected wherever it goes. With dual band Wi-Fi, Bluetooth 4.0 and a 4G micro SIM, the BCX-18 can relay data and perform updates easily while on the move. A powerful processor coupled with the Android operating system also makes the tablet lightning fast when it comes to multitasking and day-to-day use.

The 10"colour touchscreen is clear and sharp and a huge 10,000mAh battery allows for a full day of heavy use before a charge is needed. As well as all 1D and 2D codes, the BCX-18 also supports NFC which allows it to use card reading apps; perfect for taking payments or transferring small amounts of data. The front and rear camera are both sharp and fast, and a convenient one hand grip means the device is easy to use when interacting with customers, clients or simply multitasking.

Reasons to buy:

✳ A tough 10 inch Android 7 tablet designed to go anywhere and stay connected.

✳ Dual WiFi Bluetooth 4.0 and a 4G Micro SIM.

✳ A powerful processor to give performance where it's needed.

✳ Also supports NFC allowing card reading apps

✳ Front and rear camera for start images.

✳ 10000mAh battery for reliable all day use.

✳ Convenient one had grip for ease of use.

Key Features:

Wherever you roam - stay connected

This 10 inch Android terminal has Dual WiF, Bluetooth 4.0 and 4G, meaning it will stay on touch when on the move.

Contactless reading facility

The BCX-18 is equipped with an NFC reader enabling it to run contactless payment applications.

Versatility is the key note

All good general purpose units need a host of features and the BCX-18 is no exception, equipped with front and rear camera and full connectivity options.

Just keeps performing

The BCX-18 is equipped with a 10000mAh battery to cover a full days work and with a powerful, fast processor to allow a number of applications to run with ease.

Ideal for…

Retail - Warehouse - Commercial applications
