

### Product Overview:

The BCX-710UHF is perfect for fast and effective scanning where multiple items need to be catalogued quickly. The RFID reader can pick up 200 tags per second from up to 3m away. It's one of the most competent and effective RFID products in its price range, with several state of the art features making it an easy choice over some of its more expensive competitors.

Factor in the fingerprint detection, 5" sharp colour display and the 4000mAh battery, and the BCX-710 is one of the most efficient and dependable scanners around. It also has incredible tough housing which can withstand accidental drops of up to 1.5 meters, and its IP67 seal rating make it reliable in just about any condition. Once the workforce start using the BCX-710, they'll wonder how they ever did without it.

### Reasons to buy:

- \* Android 7 terminal.
- \* RFID UHF Reading tags up to 3m and 200 tags/second.
- \* Pistol grip option handy in a warehouse.
- \* 5 inch colour touch display.
- \* Dual SIM, dual WiFi for permanent connectivity.
