

### Product Overview:

The BCX-801 has been designed to be a 'go anywhere' work companion. It has an 8" colour touchscreen which is large enough to display sharp, detailed imagery, yet compact enough to fit neatly into a bag/satchel.

An 8000mAh battery guarantees all day operation, and the device is IP67 sealed allowing users to take it anywhere without fear of dust or water damage. It is ideal for busy work environments or users that are always on the move.

The BCX-801's built-in 2D scan engine is able to read all codes from both paper and screen with ease, and a 13 megapixel camera makes scanning extremely quick and reliable. A charge cradle and optional pistol grip give complete versatility.

### Reasons to buy:

- \* Android 7 operating system with Cortex Octa-core processor.
- \* Sealed to IP67, its dust and waterproof with a tough 8 inch screen.
- \* Can withstand 1.5m drops, ideal for field workers.

# BCX-801

## 8" Android Tough Tablet

### Key Features:

#### Tough Android tablet

The BCX-801 is a rugged tablet sealed to IP67, operating on the current Android 7 operating system. Ideal for field and warehouse workers alike.

#### Smart options

The BCX-801 is equipped with a 13 megapixel camera to record events in high definition. It also has a 2D barcode reader built-in, as well as fingerprint detection and NFC/Mifare card reading.

#### Stay Connected

There are all the connection options available to ensure operators stay connected at all times. These include dual WiFi and GPS with a 5m accuracy.

#### Versatile

Fitted with an 8inch full colour, backlit touch screen, the BCX-801 is ideal for replacing paper based applications.

### Ideal for...

Manufacturing - Healthcare - Retail - Asset tracking
