

### With Hot Swap Battery

### Product Overview:

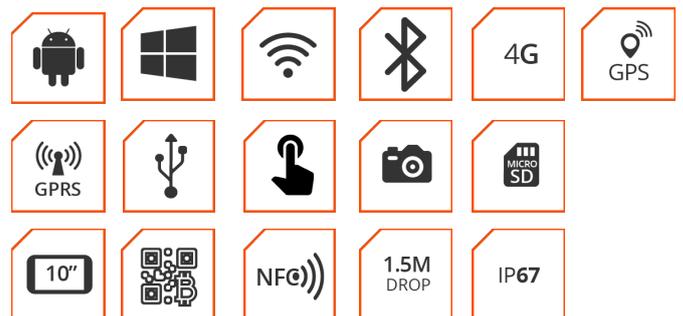

The BCX-T11 is ideal for tough, busy environments as well as taking out into the field. The sharp 10" screen is housed in a rugged shell that can withstand knocks, bumps and accidental drops of up to 1.5 meters. It's also completely dust and waterproof thanks to its IP67 seal rating, making the BCX-T11 dependable in even the most trying environments. Shipped with either Android 7.0 or Windows 10 built-in, the BCX-T11 is also extremely flexible, giving users complete freedom to run software or apps of their own choosing.

Full connectivity, including 4G and responsive dual band Wi-Fi, mean operators can roam freely without restriction, and its unique 'hot swap' battery allow for continuous use when charging isn't convenient. If that wasn't impressive enough, on board NFC also allows the BCX-T11 to run payment apps, making it one of the most capable and versatile devices in its price range.

### Reasons to buy:

- \* A tough 10 inch tablet.
- \* What sets this tablet above others - 'ITS HOT SWAP BATTERY'.
- \* Protected to IP67 full dust & waterproof protection making it ideal for field workers in all environments.

- \* Full connectivity including 4G and dual WiFi to stay connected.
- \* On board NFC allows payment apps to be run.

# BCX-T11

## 10" Android 7/Windows 10 Tough Tablet

### Key Features:

#### Just keeps working

The unique 'hot swap battery' process allows the tablet to carry on going without the need to find a charge point, increasing productivity and efficiency for the operator. For trips out into the field, it will become invaluable.

#### All weather use

House to IP67 standard, the BCX-T11 is fully waterproof for out doors work, meaning it can go wherever needed regardless of the weather.

#### Versatile OS system

The BCX-T11 is available with either an Android 7.0 or Windows 10 operating system allowing clients to use their own company standard software or apps with ease.

#### Stay Connected

With Dual WiFi and 4G capability, the BCX-T11 can stay connected whether it is being used around the warehouse or out in the field.
