

Product Overview:

The HR1550 Wahoo offers dependable wireless 1D barcode reading at an extremely competitive price. Built-in Zigbee Wireless technology allows the Wahoo to function seamlessly up to 50 meters away from its base station, making it the ideal solution for large retail outlets like garden centres or DIY stores.

The base, which also functions as a charging dock, can be easily connected to terminals via USB or RS232, and allows daisy-chain operation for up to 150 meters. Synchronous and asynchronous operational modes are included, and batch mode can be toggled on and off as needed. The Wahoo also features a tough outer shell with a drop resistance of up to 1.5 meters and an IP54 rating to guard against dust and water.

Reasons to buy:

- * Offers wireless 1D barcode reading at a low cost.
- * High performance Zigbee technology wireless operation.
- * Charge/base station connects RS232 or USB.
- * Up to 50m transmission distance to base station.
- * Daisy chain operation of base station for up to 150m range.
- * Synchronous, asynchronous or batch modes of operation.
- * Perfect for retail checkouts or in garden centres.

Expanding Coverage Area

HR1550 Wahoo

1D Wireless Handheld Scanner

Key Features:

Tough, dependable 1D scanning

The HR1550 Wahoo is designed to be able to take knocks and bumps without breaking under the pressure. Fast, accurate and dependable, it uses Zigbee technology to bring wireless capability to an already popular and reliable scanner.

Smart Cradle

Cradle and scanners can be paired one-to-one or one-to-many via a match key on the cradle. The cradle is also able to seek the paired scanners via the match key.

Zigbee Wireless

When it comes to wireless technology, Zigbee is at the forefront, allowing coverage of up to 50m. Easy networking allows for broader coverage where required.

Powerful scanning performance

The HR1550 is able to read 1D barcodes with ease, as well as PDF417 and MicroPDF417. What's more, its wireless design allows operators to move freely when scanning items for maximum efficiency.

3 Types of Working Mode
