

### Product Overview:

The PT60 Narvalo is one of the most competitively priced Windows CE6 packages in its league. The latest in a successful line of Windows operating systems, it's well proven and capable of giving exceptional performance day after day. An on board megapixel camera delivers fast, reliable scanning of 1D and 2D barcodes and a high capacity 3800mAh battery allows 11 hours of use between charge cycles.

To top it off, the Narvalo is designed to be resilient and withstand drops of up to 1.2 meters without damage. If you're looking for Windows based mobile computer that's fast, reliable and has memory storage of up to 32GB, the PT60 Narvalo is an excellent choice.

### Reasons to buy:

- \* A complete Windows CE6 package including cables and charge cradles at an attractive price.
- \* High speed reliable code reading from a mega pixel camera.
- \* A 3800mAh battery for average 11 hours use.
- \* Strong housing capable of 1.2m drops, sealed to IP54.
- \* 32bit processor plus Micro SD memory storage up to 32GB.

# PT60 Narvalo

## Windows CE Mobile Computer

### Key Features:

#### Uninterrupted Productivity

For a powerful device, the Narvalo can run for a surprisingly long time in-between charges, up to 11 hours of scanning on a single charge. The powerful 3800mAh battery charges quickly, and a spare one can be kept in the cradle so users always have a full charge to hand. The Narvalo works hard to meet the demands of the market, both today and tomorrow.

#### Out of the box readiness

From the moment users receive the Narvalo they can open up the box and get started. After a short and simple configuration progress, the device is ready to go and scanning can start immediately.

#### Less weight, more comfort

Weighing a little over 300g, including the battery, this is one of the lightest mobile computers on the market to date, bringing all day comfort to any operation. What's more, the physical keyboard with clear 3.7inch touchscreen allow users to navigate the device with ease.

#### Built for Windows

The Narvalo has been designed to work exclusively with Windows CE operating system, meaning it can support and integrate with various working environments seamlessly. Snappy and quick, it also offers a fantastic user experience.

#### Ideal for...

Transport and logistics - Warehouse back office - Retail back office - Manufacturing - Healthcare
