VMAX LIBRA SP10 Kiosk

The VMAX LIBRA SP10 is a sleek and powerful 21.5" self-service kiosk designed to enhance customer engagement and streamline transactions. Manufactured by Wintec, this all-in-one terminal features a built-in 80-column thermal receipt printer and integrated 1D/2D omni-directional barcode scanner as standard. Available with Intel or Android processing platforms, the LIBRA SP10 delivers reliable performance for high-traffic retail and hospitality environments, with flexible mounting options including wall, countertop, or floor stand installation.

Integrated Self-Service Solution
The LIBRA SP10 combines essential self-service hardware into one streamlined unit, reducing installation complexity and ensuring a clean, professional appearance. Built-in printing and scanning capabilities make it ready for immediate deployment.

Powerful & Flexible Processing
With Intel Alder Lake N97, Intel Core i5, or Android RK3568 processor options, the SP10 supports a wide range of kiosk software applications. Configurable memory and storage allow it to scale to different performance requirements.

Large Format Full HD Touch Display
The 21.5" vertical Full HD display provides a clear, engaging user interface for customers. Its 10-point PCAP touchscreen ensures fast, accurate, and intuitive interaction.

Versatile Installation & Expansion
Designed to adapt to different environments, the LIBRA SP10 supports multiple mounting configurations and optional add-ons to enhance functionality and customer interaction.
