Wintec SP70
Self-Service Kiosk Terminal

Wintec SP70 Self-Service Kiosk Terminal

The Wintec SP70 is a high-impact, large-format self-service kiosk designed for demanding, high-footfall environments. Available in 27" and 32" vertical display formats, this powerful all-in-one solution features a built-in 80mm thermal receipt printer with auto-cutter and an integrated omni-directional 1D/2D barcode scanner. Manufactured by Wintec, the SP70 combines performance, flexibility, and a sleek modern design, with wall, countertop, or floor-standing installation options to suit a wide range of deployment requirements.

Large Interactive Full HD Display
The Wintec SP70's 27" and 32" vertical displays create an engaging, easy-to-navigate customer interface. With Full HD resolution and 10-point PCAP touch technology, it delivers smooth, accurate interaction ideal for ordering, check-in, and self-checkout applications.

Flexible Processing Platforms
The Wintec SP70 is available with Intel Alder Lake N97, 11th Gen Intel Core i5, or Android RK3568 processors. Supporting Windows, Linux, and Android operating systems, it provides flexibility to meet different software and performance requirements.
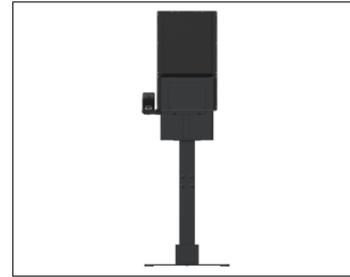

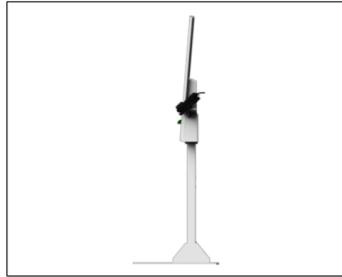

Integrated Self-Service Hardware
Designed as a complete kiosk solution, the Wintec SP70 integrates essential peripherals directly into the unit. The built-in 80mm thermal printer and omni-directional barcode scanner reduce the need for additional hardware and simplify installation.

Enterprise Connectivity & Expansion
With comprehensive I/O connectivity and a range of optional accessories, the Wintec SP70 is built for scalable, enterprise-level deployments. Optional cameras, status lighting, and security enhancements allow businesses to customise the kiosk to their environment.
